Short instructions / clarifications for filling in the payment request and submission of supporting documents (invoices / receipts).

(1) All invoices / receipts submitted should:

(a) Issued after 12/6/2018 and until 28/12/2018.

(b) Be original or certified copies

(c) Be signed by both the operator and the applicant and issued by an electronic system used by the service station or issued by an official duplicate receipt of the service station. It is emphasized that receipts received / printed by the cashiers / machines operating in non-working hours at the service station premises, are not accepted.

(d) The receipt of payment by the service stations shall contain the following information: (i) the name of the licensed service station, (ii) the registration number of the vehicle, (iii) the total quantity of diesel delivered to the vehicle, (iv) the total amount of money charged on the amount for diesel delivered to the vehicle and (v) the date of the transaction.

If an irregularity / intervention is found in the submitted documents, the penalties provided for in the relevant Regulations will be imposed and may even reach the rejection of the application.

(2) For each eligible vehicle, must submit/complete a separate detailed table for the supporting documents.

(3) The beneficiary has the option of presenting a cash invoice or invoice on credits from a fuel cell operator, accompanied by a receipt of repayment, for a specific fuel consumption period and multiple refueling. However, in this case the invoice should include the information on each refueling with separate record.
