

PRICE LIST OF PRODUCTS & SERVICES, CYPRUS DEPARTMENT OF METEOROLOGY

No.	Description	End User (€)	Broadcaster (€)	Service Provider 1 (€)	Service Provider 2 (€)	Service Provider 3 (€)
1	Raw Data (minimum charge of €10,00)	0,01 per value	0,02 per value	0,03 per value	0.03 per value	No extra charge
2	Tables Produced from Database	0,50 per product	1,00 per product	1,50 per product	1,50 per product	No extra charge
3	Weather Conditions Description	15,00	20,00	20,00	20,00	No extra charge
4	Annual / Monthly Weather Bulletins	No charge (free on website)	No charge (free on website)	No charge (free on website)	No charge (free on website)	No charge (free on website)

5	Meteorological Studies	10,00 per study	20,00 per study	30,00 per study	30,00 per study	No extra charge
6	Meteorological Notes	10,00 per note	20,00 per note	30,00 per note	30,00 per note	No extra charge
7	Check and Calibration of Meteorological Instruments – Mercury Barometer	20,00	N/A	N/A	N/A	N/A
8	Check and Calibration of Meteorological Instruments – Metallic Barometer	20,00	N/A	N/A	N/A	N/A
9	Check and Calibration of Meteorological Instruments - Thermo hydrograph	20,00	N/A	N/A	N/A	N/A
10	Check and Calibration of Meteorological Instruments - Hydrograph	20,00	N/A	N/A	N/A	N/A

11	Weather Bulletins	5,00 per bulletin	10,00 per bulletin	15,00 per bulletin	15,00 per bulletin	No extra charge
12	Weather Bulletins Per Package Per Month (Public Pack Sea Pack Navtex Pack)	100,00	100,00	100,00	100,00	No extra charge
13	One Bulletin Per Month	50,00	50,00	50,00	50,00	No extra charge
14	SYNOP codes	0,06 per code	0,12 per code	0,18 per code	0,18 per code	No extra charge
15	METAR codes	0,06 per code	0,12 per code	0,18 per code	0,18 per code	No extra charge
16	TEMP codes	3,00 per code	6,00 per code	9,00 per code	9,00 per code	No extra charge

17	Tephigrams from Radiosonde	3,00 per tephigram	6,00 per tephigram	9,00 per tephigram	9,00 per tephigram	No extra charge
18	Maps with Isopleths	5,00 per map	10,00 per map	10,00 per map	10,00 per map	No extra charge
19	RADAR Images	0,50 per image	1,00 per image	1,50 per image	1,50 per image	No extra charge
20	Satellite Image	1,00 per image	2,00 per image	3,00 per image	3,00 per image	No extra charge

Categories of users

End user (E-U): a Third Party which uses an item in the catalogue for its own commercial, industrial, or personal purposes and does not pass this item on to any further Third Party neither uses it to generate a Type B or Type C value added service (see below).

Broadcaster/publisher (BC): a Third Party which uses an item in the catalogue in order to provide a service by means of broadcast or publishing in any form.

Service provider (SP): a Third Party which acquires an item in the catalogue in order to supply Type B or Type C value added services under specific licence conditions to a further Third Party that is clearly identified and known to the first Third Party.

Service Provider (1) is the price to be paid for the data or products, excluding a redistribution licence type B VAS.

Service Provider (2) is the price to be paid for the data or products, including redistribution licence, excl. internet broadcast license type B VAS.

Service Provider (3) is the additional fee to be paid in case of internet redistribution of type B VAS. This fee comes on top of the other fee to be paid as broadcaster or service provider.

Definition of a Value Added Service

Value Added Services (VAS): all meteorological services specifically conceived to meet the needs of Third Parties and made available under specific conditions.

Type B Value Added Service (Type B VAS): VAS derived from Type A data and/or Type A products by non-meteorological processing beyond pure delivery such as colouring, formatting, geometric transformation, etc. or which display original Type A data and/or Type A products, and from which the original Type A data and/or Type A products can be retrieved easily or their use can be identified unambiguously.

Type C Value Added Service (Type C VAS): VAS generated through processing, where the original Type A data and/or Type A products or Type B VAS cannot be retrieved easily and their use cannot be identified unambiguously.

Classification of Data and Products

Type A Data: All meteorological, oceanographic, hydrological and environmental observations obtained by National Meteorological Services (NMS)

Type A Products: All meteorological information that results from the transformation or processing of data sets in the form of pictures, charts, text or data files, is considered to require meteorological know-how to be interpreted, and has been prepared specifically to meet the operational requirements of a NMS.
