

## **Announcement**

### **Survey on ICZM in the Mediterranean**

It is our pleasure to inform you that the project CAMP Italy has launched a survey in English on Integrated Coastal Zone Management – ICZM, to investigate the knowledge of the key stakeholders and general public in the Mediterranean on the topic.

This activity is meant to contribute to identify the topics on which further dissemination and capacity building are needed as well as to strengthen the network on ICZM in the Region.

The survey is available at <http://surveys.info-rac.org/index.php/513815?lang=en>

It is anonymous, really simple and it takes just few minutes to fill in it and contribute to the ICZM in the Mediterranean.

Thank you for your help!
