Application

CONVENTION ON INTERNATIONAL TRADE IN
ENDANGERED SPECIES OF WILD FAUNA AND FLORA

3. Owner of specimen(s) (name, permanent address and country of registration)

4. Issuing Management Authority

DEPARTMENT OF ENVIRONMENT
MINISTRY OF AGRICULTURE, RURAL DEVELOPMENT
AND ENVIRONMENT

Signature of Owner

6. Country of import

Various

7. Purpose of the transaction

Q

8. Security Stamp No

9. Scientific name (genus and species) and common name of species

10. Description of specimen/s, including identifying marks or numbers, age, sex

11. Quantity

12. CITES Appendix

13. EU Annex

14. Source

15. Country of origin

16. Permit No and Date

17. Exhibition Registration No

18. Date of acquisition
(if specimen originated in a Member State of the Union)

23. I hereby apply for the certificate indicated above.

Remarks

I attach the necessary documentary evidence and declare that all the particulars provided are to the best of my knowledge and belief correct. I declare that an application for a permit/certificate for the above specimens was not previously rejected.

Signature

Live animals will be transported in compliance with the CITES Guidelines for the Transport and Preparation for Shipment of Live Wild Animals or, in the case of air transport, the Live Animals Regulations published by the International Air Transport Association (IATA)

Name of applicant

Place and Date

Instructions and explanations

3. Complete the full name, permanent address and country of the owner of the specimen covered by the certificate (not of an agent). Absence of the signature of the owner renders the certificate invalid.
8. Where appropriate, indicate the number of the security stamp affixed in block 19.
9. The scientific name must be in accordance with the standard references for nomenclature referred to in Annex VIII to Regulation (EC) No 865/2006 laying down detailed rules concerning the implementation of Council Regulation (EC) No 338/97 on the protection of species of wild fauna and flora by regulating trade therein.
10. Describe, as precisely as possible, the specimen covered by the certificate, including identifying marks (tags, rings, unique markings, etc.) sufficient to permit the authorities of the country into which the exhibition enters to verify that the certificate corresponds to the specimen covered. The sex and age, at the time of the issuance of the certificate, should be recorded, where possible.
11. Indicate the total number of specimens. In the case of live animals it should normally be one. If more than one specimen, state 'see attached inventory'.
12. Enter the number of the Appendix to the Convention (I, II or III) in which the species is listed at the time of application.
13. Enter the letter of the Annex to Regulation (EC) No 338/97 (A, B or C) in which the species is listed at the time of application.
14. Use the codes below to indicate the source. This certificate may not be used for specimens with source code W, R, F or U unless they were acquired in, or were introduced into, the Union before the provisions relating to species listed in Appendices I, II or III to the Convention or Annex C to Regulation (EEC) No 3626/82 or Annexes A, B and C to Regulation (EC) No 338/97 became applicable to them and the code O is also used.
 - W Specimens taken from the wild
 - R Specimens of animals reared in a controlled environment, taken as eggs or juveniles from the wild, where they would otherwise have had a very low probability of surviving to adulthood
 - A Annex A plants artificially propagated for non-commercial purposes and Annexes B and C plants artificially propagated in accordance with Chapter XIII of Regulation (EC) No 865/2006, as well as parts and derivatives thereof
 - C Animals bred in captivity in accordance with Chapter XIII of Regulation (EC) No 865/2006, as well as parts and derivatives thereof
 - F Animals born in captivity, but for which the criteria of Chapter XIII of Regulation (EC) No 865/2006 are not met, as well as parts and derivatives thereof
 - U Source unknown (must be justified)
 - O Pre-Convention (may be used in conjunction with any other code).
- 15/16. The country of origin is the country where the specimens were taken from the wild, born and bred in captivity, or artificially propagated. Where this is a third country (i.e. a non-EU country), box 16 must contain details of the relevant permit. Where specimens originating in a Member State of the Union are exported from another, only the name of the Member State of origin must be mentioned in box 15.
17. This block must contain the exhibition registration number.
18. Enter the date of acquisition only for specimens which were acquired in, or were introduced into, the Union before the provisions relating to species listed in Appendices I, II or III to the Convention or Annex C to Regulation (EEC) No 3626/82 or Annexes A, B and C to Regulation (EC) No 338/97 applied to them.
19. Provide as many details as possible and justify any omissions to the information required above.
