

ΠΡΟΤΑΣΗ ΠΡΟΣ ΤΟ ΥΠΟΥΡΓΙΚΟ ΣΥΜΒΟΥΛΙΟ

Εθνικό Σύστημα για την ετοιμασία Ετήσιων Εθνικών Απογραφών Αερίων του Θερμοκηπίου

Η Κυπριακή Δημοκρατία κύρωσε τη Σύμβαση Πλαίσιο των Ηνωμένων Εθνών για την Κλιματική Αλλαγή με τον Νόμο Αρ. 19(III)/1997 και το Πρωτόκολλο του Κιότο με τον Νόμο Αρ. 29(III)/2003. Από το 2013, η Κυπριακή Δημοκρατία συμπεριλήφθηκε στο Πρωτόκολλο του Κιότο και ανέλαβε μεταξύ άλλων υποχρεώσεις για τις απογραφές εκπομπών αερίων του θερμοκηπίου.

2. Στα πλαίσια της εφαρμογής των αποφάσεων (3/CMP.11 και 4/CMP.11) για τον έλεγχο των απογραφών εκπομπών αερίων του θερμοκηπίου που υποβάλλονται από τα Μέρη του Πρωτοκόλλου του Κιότο, στις 12-17/9/2016 πραγματοποιήθηκε στα γραφεία του Τμήματος Περιβάλλοντος αξιολόγηση των εθνικών απογραφών εκπομπών αερίων του θερμοκηπίου της Κύπρου από ομάδα εμπειρογνομόνων της Σύμβασης Πλαίσιο των Ηνωμένων Εθνών για την Κλιματική Αλλαγή.

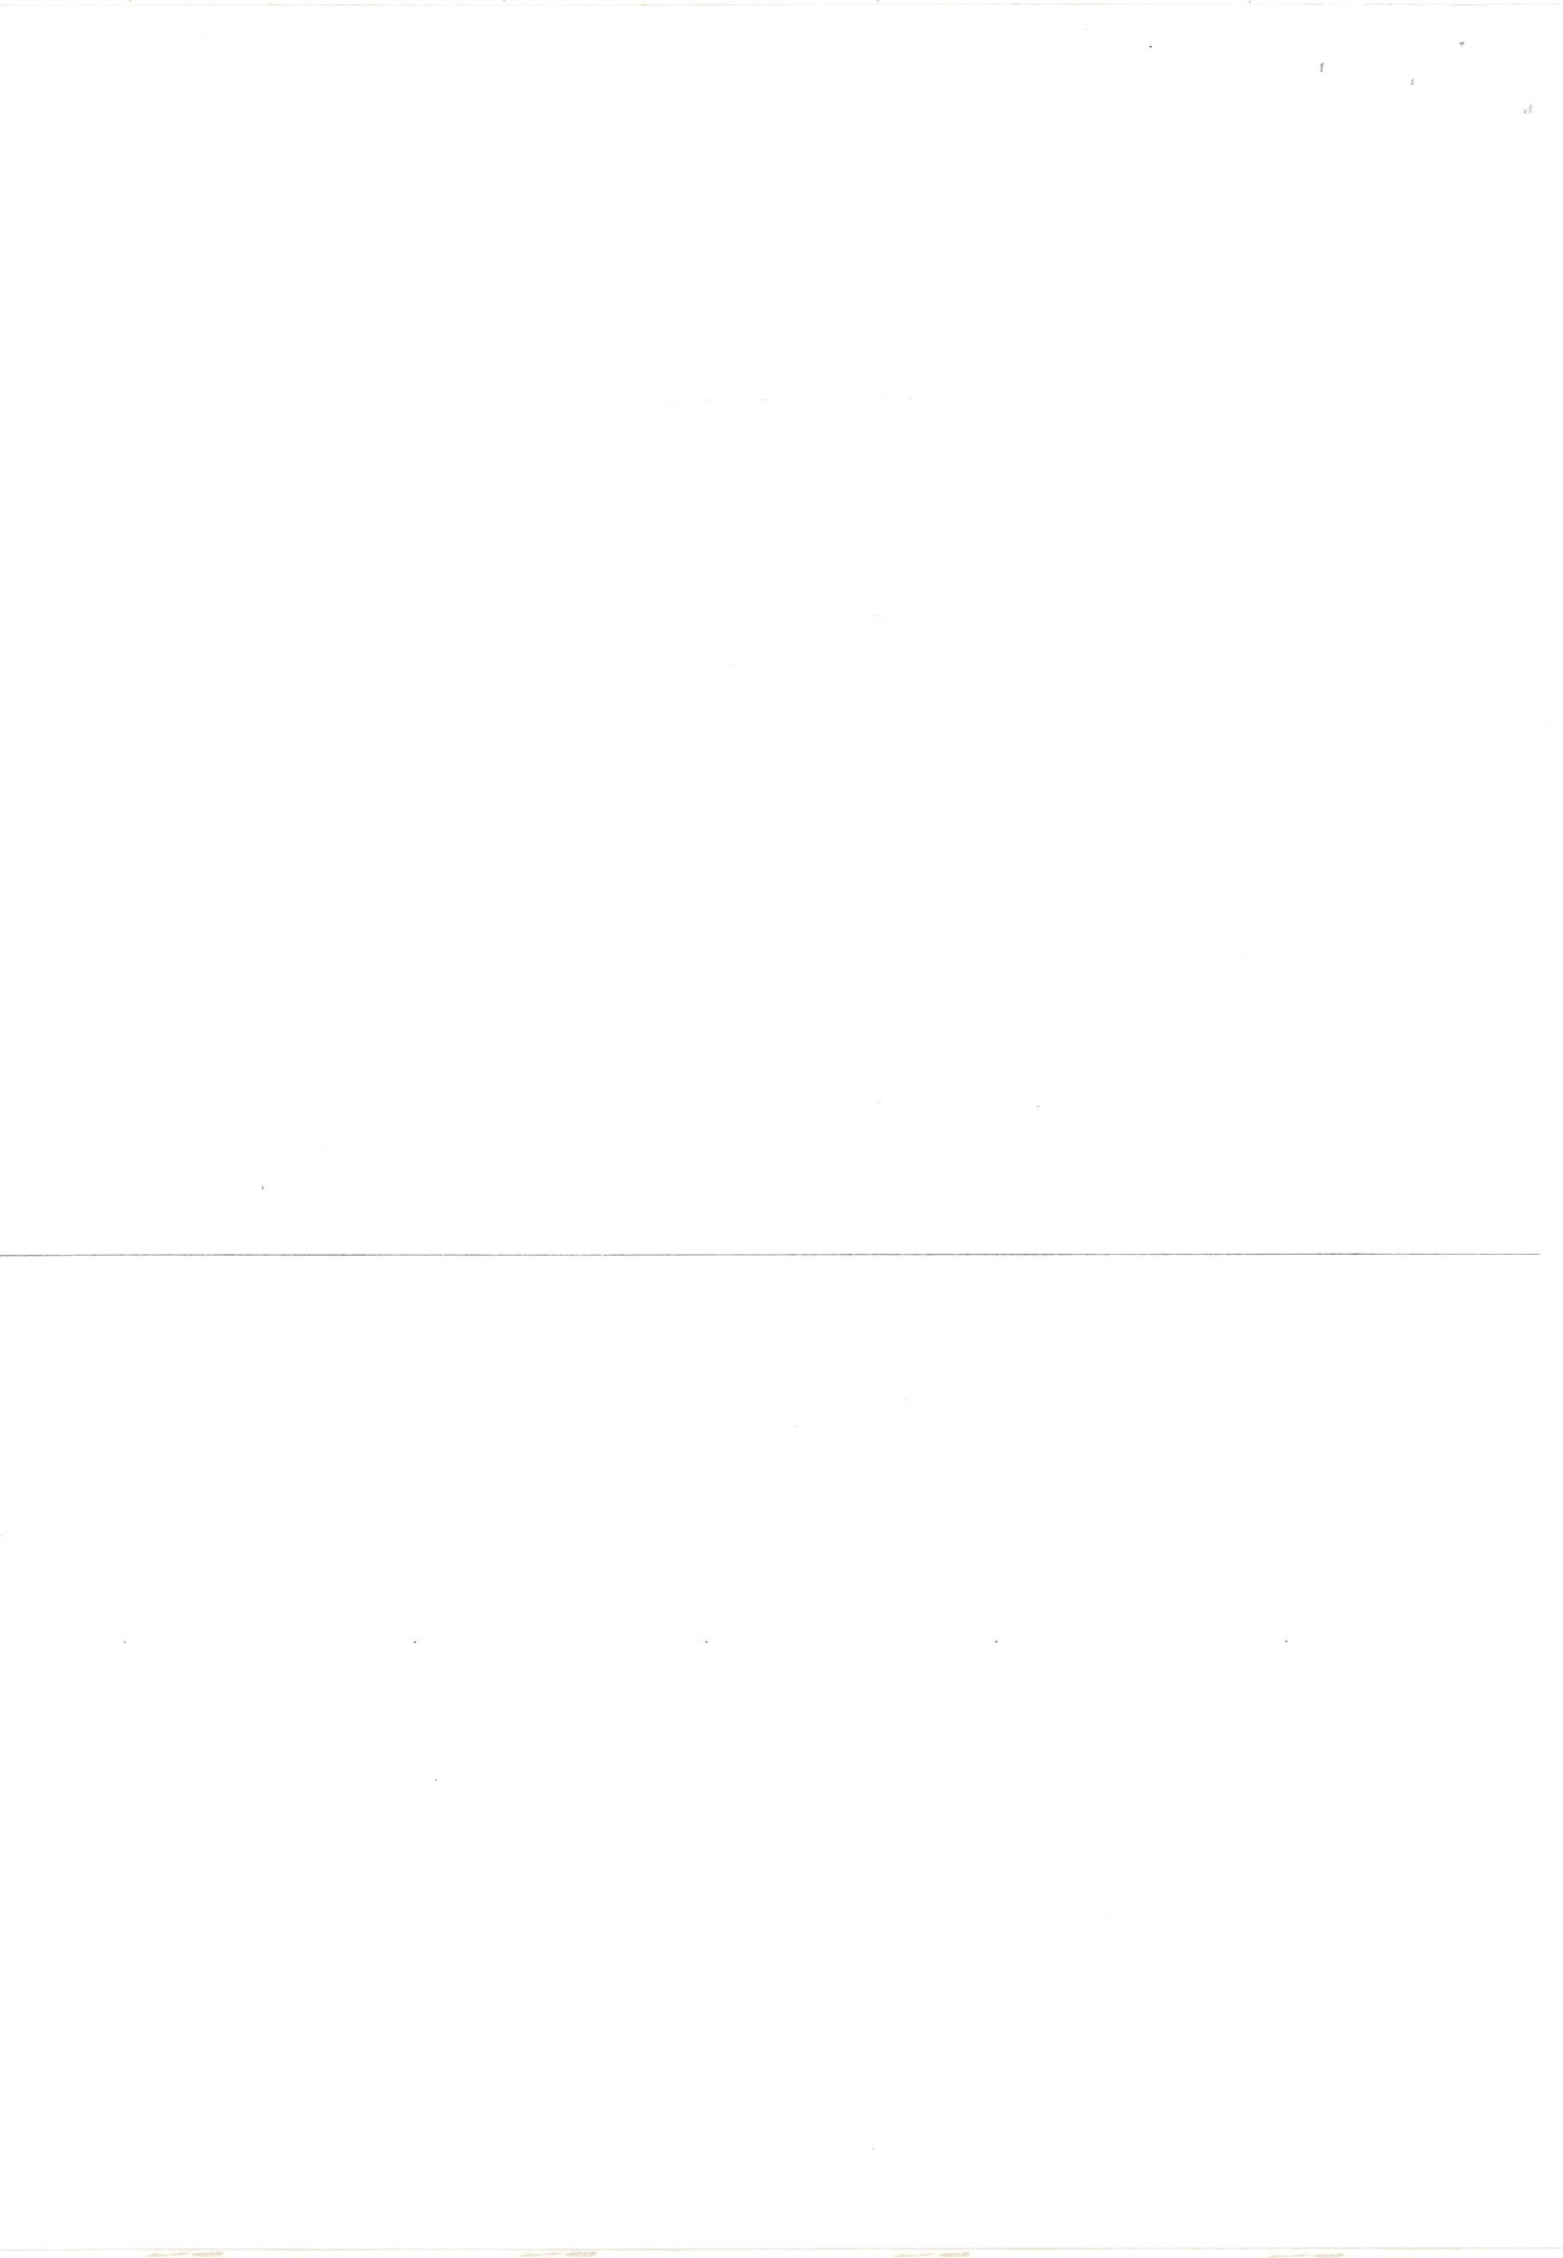

Την 1/9/2017 προωθήθηκε στο Εθνικό Σημείο Επαφής της Κύπρου προσχέδιο της τελικής έκθεσης αξιολόγησης (**Παράρτημα I**). Τα σημαντικότερα συμπεράσματα της ομάδας αξιολόγησης ήταν δύο:

- (α) ότι δεν υπάρχει συγκεκριμένο νομικό πλαίσιο που να καθορίζει τους ρόλους και ευθύνες των διαφόρων Υπουργείων και Υπηρεσιών που εμπλέκονται στην ετοιμασία των ετήσιων απογραφών εκπομπών αερίων του θερμοκηπίου,
- (β) δεν υπάρχει επαρκώς στελεχωμένη ομάδα που να διασφαλίζει την έγκαιρη και ολοκληρωμένη υποβολή της έκθεσης

3. Σε περίπτωση που η Κυπριακή Δημοκρατία αποτύχει να αποδείξει ότι έχει λάβει τα κατάλληλα μέτρα μέχρι το 2018, που έχει προγραμματιστεί η επόμενη επιτόπια αξιολόγηση, τότε θα κληθεί σε πολιτικό επίπεδο από την Επιτροπή Συμμόρφωσης να εξηγήσει τους λόγους που δεν συμμορφώθηκε με τις απαιτήσεις του Πρωτοκόλλου και θα πάψει να έχει τα δικαιώματα που έχουν τα Μέρη του Πρωτοκόλλου (π.χ. άρση του δικαιώματος συναλλαγών στο διεθνές χρηματιστήριο εκπομπών). Αυτό θα αποτελεί σοβαρό πλήγμα σε επίπεδο κράτους και πρέπει να αποφευχθεί.

4. Για επίλυση του προβλήματος απουσίας κατάλληλου νομικού πλαισίου, ετοιμάστηκε η Πρόταση για συγκρότηση Εθνικού Συστήματος για την Ετοιμασία Ετήσιων Εθνικών Απογραφών Αερίων του Θερμοκηπίου με την οποία ρυθμίζονται οι αρμοδιότητες και ευθύνες των εμπλεκόμενων Υπουργείων, Τμημάτων και Υπηρεσιών και η έγκαιρη συλλογή δεδομένων και πληροφοριών (**Παράρτημα II**).

5. Όσον αφορά τη στελέχωση της ομάδας, κρίνεται ότι η στελέχωση με νέο μόνιμο προσωπικό, αποτελεί πολύπλοκη και χρονοβόρα διαδικασία, που δεν μπορεί να φέρει άμεσα αποτελέσματα, ενώ η ανάθεση της Ετοιμασίας Ετήσιων Εθνικών Απογραφών Αερίων του Θερμοκηπίου σε εξωτερικούς εμπειρογνώμονες μέσω συμβουλευτικών υπηρεσιών μπορεί να γίνει άμεσα. Επίσης, τυχόν νέο προσωπικό θα πρέπει να εκπαιδευτεί επί του θέματος, ενώ οι εμπειρογνώμονες που θα προσληφθούν θα έχουν την αναγκαία εμπειρία.

Εκτιμάται ότι το κόστος συμβουλευτικών υπηρεσιών θα ανέλθει στις €30.000 ετησίως μη συμπεριλαμβανομένου του Φ.Π.Α., ποσό το οποίο θα συμπεριληφθεί στο Μεσοπρόθεσμο Δημοσιονομικό Πλαίσιο για το 2019 - 2021 και στους μετέπειτα εκάστοτε ετήσιους προϋπολογισμούς αναλόγως.

6. Ο Υπουργός Γεωργίας, Αγροτικής Ανάπτυξης και Περιβάλλοντος, ο οποίος θα παρουσιάσει την Πρόταση αυτή, θα καλέσει το Υπουργικό Συμβούλιο όπως:

- (α) Εγκρίνει τη συγκρότηση του Εθνικού Συστήματος για την Ετοιμασία Ετήσιων Εθνικών Απογραφών Αερίων του Θερμοκηπίου,
- (β) Εγκρίνει την ανάθεση της Ετοιμασίας Ετήσιων Εθνικών Απογραφών Αερίων του Θερμοκηπίου για την περίοδο 2019-2024 σε εξωτερικούς εμπειρογνώμονες μέσω συμβουλευτικών υπηρεσιών, και
- (γ) Δημοσιεύσει την παρούσα Απόφαση στην Επίσημη Εφημερίδα της Δημοκρατίας.

III. Technical assessment of the elements reviewed

4. In accordance with decision 22/CMP.1, and in conjunction with decisions 4/CMP.11 and 10/CMP.11, the review of the report to facilitate the calculation of the assigned amount for Cyprus has been undertaken together with the review of the inventory submission for the first year of the second commitment period.³ Table 3 contains additional information, if any, to support the ERT's assessment included in table 2 above of the Party's capacity to account for its emissions and the assigned amount, specifically related to: the calculation of the assigned amount for the second commitment period and any adjustments applied; information related to Article 3, paragraph 7 ter; as contained in the Doha Amendment, information related to reporting of activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol; calculation of the commitment period reserve; and the national system and national registry.

Table 3

Additional findings of the expert review team, if any, related to Cyprus's reporting of mandatory elements in its report to facilitate the calculation of the assigned amount

<i>ID#</i>	<i>Finding classification</i>	<i>Description of the finding</i>	<i>Classification of problem</i>
1.	Calculation of the assigned amount	The ERT noted that the European Union, its member States and Iceland stated that they will fulfil their reduction targets under the second commitment period jointly. ^a The joint assigned amount for the European Union, its member States and Iceland was calculated pursuant to the quantified emission limitation and reduction commitment listed in the third column of the table contained in Annex B to the Kyoto Protocol, while the assigned amount of each member State was determined in accordance with the terms of the joint fulfilment agreement. Specifically, the assigned amount for Cyprus was fixed based on Annex II to European Commission decision 2013/162/EU and as adjusted by Commission implementing decision 2013/634/EU ^b	Not a problem
2.	Calculation of the assigned amount	Cyprus reported its base year in the report to facilitate the calculation of the assigned amount as 5 560 247 t CO ₂ eq. However, during the review, the ERT identified that there was a calculation error that led to incorrect calculation of the base year, and the correct value, based on the original submission, should have been 5 646 847 t CO ₂ eq	Accuracy

³ The annual review report on the 2016 inventory submission of Cyprus is available at <<http://unfccc.int/resource/docs/2017/arr/cyp.pdf>>, while the annual review report on the 2015 inventory submission of Cyprus is available at <<http://unfccc.int/resource/docs/2016/arr/cyp.pdf>>.

ID#	Finding classification	Description of the finding	Classification of problem
		<p>In addition, during the review, the ERT identified that there were overestimations of emissions in the base year estimates for several categories, which were not resolved during the review, and therefore included issues in the list of potential problems and further questions raised by the ERT</p> <p>In response to a list of potential problems and further questions raised by the ERT (see FCCC/ARR/2016/CYP), Cyprus officially submitted revised CRF tables on 27 January 2017. Based on the revised estimates the ERT recalculated the base year as indicated in decision 2/CMP.8, annex I, paragraph 1(b), that is, 1990 for CO₂, CH₄ and N₂O and 1995 for HFCs, PFCs, SF₆ and NF₃ (in the case of Cyprus). The correct base year emission estimate is 5 627 236 t CO₂ eq (see table 4)</p> <p>The revised estimates for the base year emissions do not affect the assigned amount for Cyprus referred to in table 4 below because the assigned amount is determined based on the allocations in the European Union decisions referenced above, and is not calculated using the base year emission estimates for Cyprus. The ERT invites Cyprus to communicate the revised base year emission estimates to the European Union with a view to be considered in the calculation of the joint assigned amount of the European Union, its member States and Iceland</p>	
3.	Calculation of the assigned amount	<p>The ERT noted that according to Article 3, paragraph 7bis, of the Doha Amendment and paragraph 5(b) in decision 13/CMP.1 in conjunction with decision 3/CMP.11, those Parties for which land-use change and forestry constituted a net source of greenhouse gas emissions in the base year shall include in their emissions during that year the aggregate anthropogenic carbon dioxide equivalent emissions by sources minus removals by sinks in that year from forest land subjected in relation to conversion of forests (deforestation)</p> <p>In the absence of a complete inventory for LULUCF (see FCCC/ARR/2016/CYP, L.1 and L.10), the ERT was not able to verify whether LULUCF is a net source in the base year or not and neither assess emissions from deforestation. Nevertheless, the Party informed the ERT that that LULUCF did not constitute a net source of GHG emissions in the base year. The ERT concluded that emissions from deforestation are not to be included in the emissions of the base year for the purpose of calculating the assigned amount for the second commitment period</p>	Accuracy
4.	Reporting pursuant to Article 3.7 ter of the Doha Amendment	<p>The ERT noted that Cyprus provided information in accordance with Article 3, paragraph 7ter, of the Doha Amendment. The Party indicated that the provisions of the Article 3, paragraph 7ter, will be subject to joint fulfilment by the European Union. In line with the terms of the joint fulfilment of the European Union, its member States and Iceland under Article 3 of the Kyoto Protocol, and as described in the report to facilitate the calculation of the assigned amount of the European Union, Article 3, paragraph 7ter, of the Doha Amendment is applied to the joint assigned amount of the European Union, its member States and Iceland for the second commitment period. In its report, the European Union includes the value for the difference between the joint assigned amount for the second commitment period and average annual emissions for the first three years of the first commitment period for the member States and Iceland, multiplied by 8. The report of the European Union also clarifies that the approach used to calculate average annual emissions for the first three years of the first commitment period includes the gases and sources listed in Annex A to the Kyoto Protocol</p>	Not a problem

ID#	Finding classification	Description of the finding	Classification of problem
5.	Calculation of the commitment period reserve	<p>The ERT noted that the commitment period reserve was calculated in accordance with the annex to decision 18/CP.7, the annex to decision 11/CMP.1 and decision 1/CMP.8, paragraph 18</p> <p>In accordance with decision 11/CMP.1, annex, paragraph 6, and decision 1/CMP.8, paragraph 18, each Party included in Annex 1 shall maintain, in its national registry, a commitment period reserve which should not drop below 90% of the Party's assigned amount calculated pursuant to Article 3, paragraphs 7 and 8, of the Kyoto Protocol, or 100% of eight times its most recently reviewed inventory, whichever is lowest</p> <p>Cyprus's assigned amount multiplied by 90% is equal to 42 705 115 t CO₂ eq. Cyprus's 2014 total emissions without LULUCF (8 453 767 t CO₂ eq) multiplied by 8 is equal to 67 630 140 t CO₂ eq. Based on the calculations the correct commitment period reserve of Cyprus is 42 705 115 t CO₂ eq, as indicated by the Party in its initial report</p>	Not a problem
6.	Accounting of activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol	Cyprus reported in section 9.1.1 of the NIR that the forest definition is in line with the Forest National Law of 2012 (25 (I)/2012) and in accordance with the definitions of the Food and Agriculture Organization of the United Nations for its <i>Global Forest Resources Assessment (FAO FRA 2015)</i>	Not a problem
7.	Accounting of activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol	The ERT noted that Cyprus has not reported in its initial report to facilitate the calculation of the assigned amount any information on how technical correction is considered in the elaboration of its GHG inventory	Accuracy
8.	Accounting of activities under Article 3, paragraphs 3 and 4, of the Kyoto Protocol	<p>The forest management cap is calculated as 3.5% of the base year emissions, multiplied by the duration of the commitment period (8 years)</p> <p>Cyprus reported its forest management cap in the report to facilitate the calculation of the assigned amount as 1 556 869 t CO₂ eq. However, no values for the forest management cap were included in the CRF table "accounting"</p> <p>Based on the submitted revised estimates and the recalculation of the base year (see ID#2 above), 3.5% of total base year GHG emissions amounts to 196.953 kt CO₂ eq, which, multiplied by 8, amounts to 1 575.626 kt CO₂ eq</p>	Not a problem
9.	National system	<p>The ERT noted that no specific legal frameworks have been established in Cyprus that define the roles and responsibilities of specific ministries, agencies and other entities in relation to timely data provision and national GHG inventory preparation as outlined in decision 19/CMP.1 and reaffirmed by decisions 3/CMP.11 and 4/CMP.11. The ERT further noted that a functional national system is part of the eligibility criteria for participation in the second commitment period of the Kyoto Protocol</p> <p>During the in-country review, Cyprus provided the work plan for enhancing the functionality of the national system to the ERT (see ID#11). Cyprus also explained the institutional arrangements for the preparation of the inventory. The Ministry of Agriculture, Rural Development and Environment (MADRE) has been given the overall responsibility for national GHG inventory preparation. The designated departments under MADRE perform activity data collection, selection of methods and parameters, GHG emission estimates and compilation of the national inventory submission. Other institutions involved in the preparation of the inventory include the</p>	Not a problem

		<p>Energy and Industry and Technology Services of the Ministry of Energy, the Ministry of Transport, the Department for Labour Inspection of the Ministry of Labour, the Statistical Service of the Ministry of Finance, the Electricity Authority of Cyprus and private companies such as Vassiliko Cement Works plc and EME Ltd. Their specific responsibilities in the inventory development process have been mainly defined as data and information providers</p> <p>To enhance its legal framework and institutional arrangements for the preparation of the national GHG inventory, Cyprus decided to proceed with a draft decision of the Council of Ministers. The draft decision was elaborated and sent for peer review to the stakeholders involved. Cyprus expects that the decision will be taken by the Council of Ministers in 2017</p>	
10.	National system	<p>The ERT noted that the report to facilitate the calculation of the assigned amount of Cyprus did not include the information on a single national entity to be established under Article 5 of the Kyoto Protocol as outlined in decision 19/CMP.1 and reaffirmed by decisions 3/CMP.11 and 4/CMP.11. During the in-country visit, Cyprus explained that MADRE has been assigned the functions of designated governmental body responsible for the coordination and implementation of climate-related policy in Cyprus. The name, full affiliations and contact details of the responsible person in MADRE were provided to the ERT</p>	Not a problem
11.	National system	<p>During the review, the ERT considered that, in accordance with the NIR and the information provided during the in-country review, the national system of Cyprus did not fully follow the requirements outlined in decision 19/CMP.1 in conjunction with decision 4/CMP.11. The ERT also considered that the national system of Cyprus was not performing some of the general and specific functions defined in the annex to decision 19/CMP.1 in conjunction with decisions 3/CMP.11. The ERT included these issues in the list of potential problems and further questions raised by the ERT (see FCCC/ARR/2016/CYP, issue G.9). In response to this list, Cyprus provided a work plan for enhancing functionality of the national system (see ID#9). The work plan generally corresponds to requirements of the guidelines for national systems as set in the annex to decision 19/CMP.1, in conjunction with decisions 3/CMP.11</p>	Accuracy
12.	National registry	<p>The ERT noted that Cyprus has joined the European Union consolidated registry system and the national registry of Cyprus is currently under development in collaboration with the European Commission. The ERT further noted that the description of the national registry in the report to facilitate the calculation of the assigned amount of Cyprus does not fully conform with the registry requirements as set out in the annex to decision 13/CMP.1. In particular, the report does not include contact information on designated organization and registry administrator, or a description of the standardized electronic database applied for registry performance and publicly accessible information</p> <p>During the in-country review, Cyprus informed the ERT that MADRE has been assigned the responsibility of designated organization responsible for registry administration. The ERT was also provided with the contact information on the designated organization and the access to publicly available information through the European Union consolidated registry website</p>	Accuracy
13.	National registry	<p>The ERT noted that a thorough review of the national registry, as stipulated by the Article 8 review guidelines (part V: review of national registries), will be undertaken in the context of the initialization of the national registry</p>	Not a problem

^a The report to facilitate the calculation of the assigned amount for the European Union is available at <<http://unfccc.int/9499>>.

^b At the time of publication of this report, the European Union had not yet submitted its instrument of ratification of the Doha Amendment and information on the joint implementation of such an amendment.

^c Pursuant to decision 16/CP.10, the administrator of the international transaction log, once registry systems become operational, is requested to facilitate an interactive exercise, including with experts from Parties to the Kyoto Protocol not included in Annex I to the Convention, demonstrating the functioning of the international transaction log with other registry systems. Information on this exercise will be included in its annual report of the administrator of the international transaction log to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol.

IV. Questions of implementation

5. No questions of implementation were identified by the ERT during the review.

2. Υποχρέωση

Θέσπιση, διαχείριση και συνεχής βελτίωση του "εθνικού συστήματος απογραφής".

Το εθνικό σύστημα απογραφής, ορίζεται ως σύστημα θεσμικών, νομικών και διαδικαστικών ρυθμίσεων, το οποίο θεσπίζεται σε ένα κράτος μέλος για την εκτίμηση των ανθρωπογενών εκπομπών από πηγές και των απορροφήσεων από καταβόθρες των αερίων θερμοκηπίου που δεν διέπονται από το πρωτόκολλο του Μόντρεαλ και για την υποβολή και την αρχειοθέτηση πληροφοριών απογραφής σύμφωνα με την απόφαση 19/CMP.1 ή άλλες συναφείς αποφάσεις της UNFCCC ή φορέων του πρωτοκόλλου του Κιότο και τη Συμφωνίας του Παρισιού.

3. Υφιστάμενη Κατάσταση στην Κύπρο

Οι ετήσιες εθνικές εκθέσεις απογραφών εκπομπών αερίων του θερμοκηπίου ετοιμάζονται από το Τμήμα Περιβάλλοντος του Υπουργείου Γεωργίας, Αγροτικής Ανάπτυξης και Περιβάλλοντος (Single National Entity). Δεν υπάρχει θεσμοθετημένη

διαδικασία για τη συλλογή πληροφοριών και δεδομένων μεταξύ Υπηρεσιών, Τμημάτων, Υπουργείων και του Τμήματος Περιβάλλοντος .

4. Ανάγκη για θέσπιση εθνικού συστήματος απογραφής

Στα πλαίσια της εφαρμογής των αποφάσεων 3/CMP.11 και 4/CMP.11 για τον έλεγχο των απογραφών εκπομπών αερίων του θερμοκηπίου που υποβάλλονται από τα Μέρη του Πρωτοκόλλου του Κιότο, στις 12-17/9/2016 πραγματοποιήθηκε στα γραφεία του Τμήματος Περιβάλλοντος επιτόπια αξιολόγηση των εθνικών απογραφών εκπομπών αερίων του θερμοκηπίου της Κύπρου από ομάδα εμπειρογνομένων της Σύμβασης Πλαίσιο των Ηνωμένων Εθνών για την Κλιματική Αλλαγή.

Όπως προβλέπεται από τις σχετικές αποφάσεις της Συνόδου των Μερών της Σύμβασης, την 1/9/2017 προωθήθηκε στο Εθνικό Σημείο Επαφής της Κύπρου προσχέδιο της τελικής έκθεσης αξιολόγησης

Το σημαντικότερο συμπέρασμα της ομάδας αξιολόγησης είναι ότι δεν υπάρχει συγκεκριμένο νομικό πλαίσιο που να καθορίζει τους ρόλους και ευθύνες των διαφόρων Υπουργείων και Υπηρεσιών που εμπλέκονται στην ετοιμασία των ετήσιων απογραφών εκπομπών αερίων του θερμοκηπίου.

Αποφασίστηκε όπως το κενό αυτό καλυφθεί από Απόφαση Υπουργικού Συμβουλίου, η οποία να ρυθμίζει τις ευθύνες των εμπλεκόμενων Υπουργείων, Τμημάτων και Υπηρεσιών στη συλλογή δεδομένων και πληροφοριών για την έγκαιρη και ολοκληρωμένη ετοιμασία των εθνικών απογραφών εκπομπών αερίων του θερμοκηπίου της Κύπρου.

Η συλλογή πληροφοριών και δεδομένων από ιδιωτικές επιχειρήσεις θα ρυθμιστεί με συμφωνίες μεταξύ των εμπλεκόμενων επιχειρήσεων και του Τμήματος Περιβάλλοντος.
