

Article 5 of Implementing Regulation (EU) 2020/1208 (use of auctioning revenues) for Cyprus

Table 1a: Revenues generated from auctioning of allowances in year 2020

	1 000 Euros	1 000 in domestic currency, if applicable (1)	Comments (e.g. explain gaps, relevant national circumstances, changes since last reporting)
Total amount of revenues generated from auctioning of allowances	40066	40066	
Of which amount of revenues generated from auctioning of allowances pursuant to Article 10 of Directive 2003/87/EC	40066	40066	
Of which amount of revenues generated from auctioning of allowances pursuant to Article 3d (1) or (2) of Directive 2003/87/EC	0	0	all available data have been filled

Notes:

(1) An average annual exchange rate for the year 2020 or the real exchange rate applied to the amount disbursed

Provide the exchange rate used in this questionnaire (1 Euro = XX domestic currency unit)	0
--	----------

Table 1b: Use of revenues from auctioning of allowances in year 2020

	Total amount disbursed in the year 2020		Of which amount disbursed in year 2020 and reported as committed in years before 2020		Total amount committed, but not disbursed, in the year 2020		Equivalent financial value used in the year 2020 (2)		Comments (e.g. explain gaps, relevant national circumstances, changes since last reporting)
	1 000 Euros	1 000 in domestic currency, if applicable (1)	1 000 Euros	1 000 in domestic currency, if applicable (1)	1 000 Euros	1 000 in domestic currency, if applicable (1)	1 000 Euros	1 000 in domestic currency, if applicable (1)	
Total amount of revenues from auctioning of allowances or equivalent financial value used for the purposes specified in paragraph 3 of Article 10, and Article 3d(4) of Directive 2003/87/EC	40066		5985	5985					
Of which amount of revenues from auctioning of allowances used for the purposes specified in Article 10(3) of Directive 2003/87/EC (if data are available for separate reporting)	40066		5985	5985	5985		5985		all available data have been filled
Of which amount of revenues from auctioning of allowances used for the purposes specified in Article 3d(4) of Directive 2003/87/EC (if data are available for separate reporting)	0	0	0		1		1		no available information

Notes:

(1) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.

(2) By reporting 'equivalent financial value', Member States report values which are representative for their spending in accordance with Articles 3d and 10 of Directive 2003/87/EC, and indicate that all values reported in

Table 2: Use of revenues from auctioning of allowances for domestic and Union purposes pursuant to Articles 3d and 10 of Directive 2003/87/EC

Purpose for which revenues were used (e.g. programme, activity, action or project title)	Short description (including reference to online source of more detailed description, if available)	Amount for year 2020		Status (2)	Revenues pursuant to		Type of use (3)	Financial instrument (4)	Implementing Agency (e.g. responsible ministry)	Comments
		1 000 Euros	1 000 Domestic Currency (1)		Article 3d	Article 10				
Implementation of the national legislation for energy audits	Compensation for the member of the Energy Auditors Committee (KDP 184/2012)	1	1	Disturbed	No	Yes	promotion of skill formation and reallocation of labour in order to contribute to a just transition to a low carbon economy	- fiscal	Energy Service	
Fuel quality assurance system: Laboratory testing of petroleum products	Expenses for Mobile Laboratory Unit: Purchasing consumables and specialized sampling equipment, maintenance, repair or replacement of equipment etc	64	64	Disturbed	No	Yes	development of technologies that help meet the commitment of the Union to increase energy efficiency; financing of research and development in energy efficiency and clean technologies	- fiscal	Energy Service	
Informative measures and operation of the applied energy center	Implementation of Informative actions for energy efficiency (TV and radio spots, billboards etc) and expenses related to the laboratory testing of solar systems	176	176	Disturbed	No	Yes	financing of research and development in energy efficiency and clean technologies; promotion of skill formation and reallocation of labour in order to contribute to a just transition to a low carbon economy	- fiscal	Energy Service	

Comprehensive assessment of the national potential for efficient heating and cooling	Purchase of services for the execution of the study (requested by the Energy Efficiency Directive 2012/27/EE)	26	26	Disturbed	No	Yes	financing of research and development in energy efficiency and clean technologies	- fiscal	Energy Service
Contribution to international organizations for energy	IRENA, INTERNATIONAL ENERGY FORUM, WORD ENERGY COUNCIL, PLATTS	78	78	Disturbed	No	Yes	funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms	- fiscal	Energy Service
Common methodology for alternative fuels unit price comparison and participation	Participation to the European Supporting Action for the implementation of the Implementing Regulation 2018/732/EU on a common methodology for alternative fuels unit price comparison in accordance with Directive 2014/94/EU (80% EU contribution+20% national contribution)	28	28	Disturbed	No	Yes	funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms	- fiscal	Energy Service
Energy efficiency of buildings	Purchase of services for the creation of a new methodology for calculating the energy efficiency of buildings	97	97	Disturbed	No	Yes	development of technologies that help meet the commitment of the Union to increase energy efficiency	- fiscal	Energy Service

Conferences on the topic: "Proposed Revision of the Methodology for Calculating the Energy Efficiency of a Building"	?nforming Qualified Experts about the new proposal of the methodology for calculating the energy efficiency of buildings	1	1	Disturbed	No	Yes	other domestic uses	- fiscal	Energy Service	
Energy efficiency of buildings	Purchase of Services for the Creation / Addition of new parameters in the Database of the Register of PEA in the existing "Energy Certification System of Buildings" and in the existing Tool of Recommendations (SEAK)	1	1	Disturbed	No	Yes	other domestic uses	- fiscal	Energy Service	
Energy efficiency of buildings	Maintenance of the existing system of Energy Certification System of Buildings and Online Payment	3	3	Disturbed	No	Yes	other domestic uses	- fiscal	Energy Service	
New methodology for conducting inspections of heating, air conditioning and ventilation systems and setting requirements for technical building systems.	Purchase of services for the creation of a new methodology for conducting inspections of heating, air conditioning and ventilation systems and setting requirements for technical building systems in accordance with the provisions of Directive 844 / EU (Articles 8,14,15)	37	37	Disturbed	No	Yes	financing of research and development in energy efficiency and clean technologies	- fiscal	Energy Service	
Market surveillance activities under Regulation (EU) 2017/1369 of the European Parliament and of the Council of 4 July 2017 setting a framework for energy labelling and repealing Directive 2010/30/EU	Purchase of 15 tablets with internet data for inspection of relevant products with the use of EPREL	3	3	Disturbed	No	Yes	other domestic uses	- fiscal	Energy Service	

<p>Reducing Greenhouse Gas Emissions and Adapting agriculture to Climate Change with Research Funding</p>	<p>Experimental work was done, within the framework of the Objectives of ARI, in the following topics: - Improving crop production and adapting to climate change. - Improving livestock production. - Consolidation and preservation of the genetic basis of plant and animal production. - Implementation of research programs for identification, and integrated treatment of pests and diseases of crops, Integrated Production Management and Organic Agriculture. - Conducting research programs for the proper use of recycled water, intelligent management of hydroponic systems, Use of Renewable Energy Sources in agriculture, conservation of biodiversity and commercial utilization of the Cypriot flora. - Development of innovative methods for soil decontamination, improving fertility and reducing the dependence of agricultural production on conventional energy sources.</p>	<p>151</p>	<p>151</p>	<p>Disturbed</p>	<p>No</p>	<p>Yes</p>	<p>funding of research and development and demonstration projects for reducing emissions and for adaptation</p>	<p>- fiscal</p>	<p>Agricultural Research Institute</p>
---	---	------------	------------	------------------	-----------	------------	---	-----------------	--

Reduction of greenhouse gas emissions through research funding	Collection of data, measurements and estimates on the impact of climate change on the forests of Cyprus	19	19	Disturbed	No	Yes	forestry sequestration in the Union; measures to avoid deforestation	- fiscal	Forestry Department	
Measures to prevent deforestation and increase afforestation	Construction of new and maintenance of existing fire lanes within the State Forests: ? Forest Region of Nicosia, Larnaca, Famagusta ? Troodos Forest Region ? Paphos Forest Region ? Forest Engineer	208	208	Disturbed	No	Yes	measures to avoid deforestation	- fiscal	Forestry Department	
Measures to prevent deforestation and increase afforestation	Construction and maintenance of forest roads in order to facilitate the movement of fire trucks	210	210	Disturbed	No	Yes	adaptation to the impacts of climate change; forestry sequestration in the Union; measures to avoid deforestation	- fiscal	Forestry Department	
(b) Measures to prevent deforestation and increase afforestation	Reforestation of burned and other degraded areas ? Forest Region of Nicosia, Larnaca, Famagusta ? Troodos Forest Region, ? Paphos Forest Region	15	15	Disturbed	No	Yes	adaptation to the impacts of climate change; forestry sequestration in the Union; measures to avoid deforestation	- fiscal	Forestry Department	
Administrative expenses for the ETS scheme	2020 Fees for the auctioning services of the Cyprus Stock Exchange.	473	473	Disturbed	No	Yes	coverage of administrative expenses of the management of the EU ETS	- fiscal	Cyprus Stock Exchange	
Funding of Cyprus Research & Educational Foundation	Initial Sponsorship	6373	6373	Disturbed	No	Yes	financing of research and development in energy efficiency and clean technologies	- fiscal	Directorate General for European Programmes, Coordination and Development	

encouraging a shift towards low emissions and public transport	Funding encouragement towards low emissions and public transport	32000	32000	Committed	No	Yes	encouragement of a shift to low-emission and public forms of transport	- financial support policy	Ministry of Transport
Adaptation to Climate Change		39961	39961						

Notes:

(1) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.

(2) Select one of the two choices. If part of the reported amount is committed and another part disbursed related to a specific programme/project, two separate rows should be used. If Member States are not able to distinguish between committed and disbursed amounts, the most appropriate category should be selected for the reported amounts.

Please provide the definitions used for 'commitment' and 'disbursement' (Consistent definitions should be used across the Tables)*:

- 'commitment' :	Information not available
- 'disbursement' :	None

(3) Categories of uses mentioned in Article 10(3) of Directive 2003/87/EC as follows:

- funding of research and development and demonstration projects for reducing emissions and for adaptation;
- funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms;
- development of renewable energies to meet the commitment of the Union;
- development of other technologies contributing to the transition to a safe and sustainable low-carbon economy;
- development of technologies that help meet the commitment of the Union to increase energy efficiency;
- forestry sequestration in the Union;
- environmentally safe capture and geological storage of CO₂;
- encouragement of a shift to low-emission and public forms of transport;
- financing of research and development in energy efficiency and clean technologies;
- measures intended to increase energy efficiency and insulation or to provide financial support in order to address social aspects in lower and middle income house-holds;
- coverage of administrative expenses of the management of the EU ETS;
- promotion of skill formation and reallocation of labour in order to contribute to a just transition to a low carbon economy;
- other reduction of greenhouse gas emissions;
- adaptation to the impacts of climate change;
- other domestic uses.

Categories mentioned in Article 3d(4) of Directive 2003/87/EC, but not specifically mentioned in Article 10(3) as follows:

- funding of common projects to reduce greenhouse gas emissions from the aviation sector;
- measures to avoid deforestation.

Member States shall avoid double counting of amounts in this Table. If a specific use fits to several types of uses, several types can be selected; however, the amount indicated is not to be multiplied but additional rows for types of uses are to be linked with one entry field for that amount.

(4) Several categories can be selected if several financial instruments are relevant for the reported programme or project.

Table 3: Use of revenues from auctioning of allowances for international purposes

Use of revenues from auctioning of allowances or the equivalent in financial value for international purposes (3)	Amount committed in the year 2020 (2)		Amount disbursed in the year 2020 (2)		Comments e.g. explain gaps, qualitative information on specific uses if quantitative information is not available and any other accompanying information (3)
	1 000 Euros	1 000 in domestic currency, if applicable (1)	1 000 Euros	1 000 in domestic currency, if applicable (1)	
	0	0	0	0	no data
Total amount used as specified under Articles 10(3) and Article 3d(4) of Directive 2003/87/EC for supporting developing countries	0	0	0	0	no data

Notes:

(1) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.

(2) The definition used and provided in table 2 must be used. If part of the reported amount is committed and another part disbursed related to a specific programme/project, two separate rows should be used. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts.

(3) Member States shall avoid double counting of amounts in this Table. If a specific use fits into several rows, the most appropriate one is to be chosen and the respective amount shall be only entered once. Accompanying textual information could further explain such allocation decisions, if necessary.

Table 4: Use of revenues from auctioning of allowances to support developing countries through multilateral channels pursuant to Articles 3d and 10 of Directive 2003/87/EC (1) (2)

	Amount for the year 2020		Status (4)	Type of support (5)	Financial instrument (6)	Sector (7)	Comments (e.g. explain gaps, qualitative information on specific uses if quantitative information is not available and any other accompanying information)
	1 000 Euros	1 000 Domestic Currency (3)					
Green Climate Fund under the UNFCCC	0	0		Information not available			Information not available
Total amount for supporting developing countries through multilateral channels	0	0		Information not available			Information not available
of which used, if applicable, via multilateral funds	0	0		Information not available			Information not available
Global Energy Efficiency and Renewable Energy Fund (GEEREF) (Article 10(3)(a) of Directive 2003/87/EC)	0	0		Information not available			Information not available
Adaptation Fund under the UNFCCC (Article 10, paragraph 3(a) of Directive 2003/87/EC)	0	0		Information not available			Information not available
Special Climate Change Fund (SCCF) under the UNFCCC	0	0		Information not available			Information not available
Least Developed Countries Fund	0	0		Information not available			Information not available
UNFCCC Trust Fund for Supplementary Activities	0	0		Information not available			Information not available
For multilateral support to REDD+ activities	0	0		Information not available			Information not available
Other multilateral climate-related funds (please specify)	0	0		Information not available			Information not available

of which used, if applicable, via multilateral financial institutions	0	0		Information not available			Information not available
Global Environmental Facility	0	0		Information not available			Information not available
World Bank	0	0		Information not available			Information not available
International Finance Corporation	0	0		Information not available			Information not available
African Development Bank	0	0		Information not available			Information not available
European Bank for Reconstruction and Development	0	0		Information not available			Information not available
Inter-American Development Bank	0	0		Information not available			Information not available
Other multilateral financial institutions or support programmes, please specify	0	0		Information not available			Information not available

Notes:

- (1) Member States shall avoid double counting of amounts in this Table. If a specific use fits into several rows, the most appropriate one is to be chosen and the respective amount shall be only entered once. Accompanying textual information could further explain such allocation decisions, if necessary
- (2) The notation key 'information not available' may be used if there is absolutely no information available for the respective cells.
- (3) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.
- (4) Information on the status shall be provided where available at disaggregate level. The definition used and provided in table 2 must be used. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts.
- (5) To be reported if such information is available for multilateral fund or banks. 'Information not available' should only be selected if there is absolutely no information available for the respective row.
- (6) The appropriate financial instrument shall be chosen. Several categories should be selected if several financial instruments are relevant for the respective row. Mostly grants are provided to multilateral institutions and other categories may not frequently be applicable. However more categories are used to achieve consistency with reporting requirements for biennial reports under the UNFCCC. 'Information not available' should only be selected if there is absolutely no information available for the respective row.
- (7) Several applicable sectors can be selected. Member States may report sectoral distribution if such information is available. 'Information not available' should only be selected if there is absolutely no information available for the respective row.
- (8) Only financial support provided which is climate-specific as e.g. indicated by CDC DAC indicators should be entered in this Table.

Table 5: Use of revenues from auctioning of allowances pursuant to Articles 3d and 10 of Directive 2003/87/EC for bilateral or regional support to developing countries (1) (2)

Programme, activity, action or project title	Recipient country/region	Amount for the year 2020		Status (4)	Type of support (5)	Sector (6)	Financial instrument (7)	Implementing Agency	Comments
		1 000 Euros	1 000 Domestic currency (3)						
N/A	N/a	0	0	Committed	Information not available	information not available	equity	N/a	Information not available
Information not available		0	0						

Notes:

(1) Member States shall avoid double counting of amounts in this Table. If a specific use would fit into several rows, the most appropriate one shall be chosen and the respective amount shall be only entered once. Accompanying textual information could further explain such allocation decisions, if necessary

(2) The notation key 'information not available' may be used if there is absolutely no information available for the respective cells.

(3) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.

(4) Information on the status shall be provided at least in Table 3, and should be provided in this Table, where available at disaggregate level. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts.

(5) Only financial support provided which is climate-specific as e.g. indicated by OECD DAC indicators should be entered in this Table.

(6) Several applicable sectors can be selected. Member States may report sectoral distribution if such information is available. 'Information not available' should only be selected if there is absolutely no information available for the respective row.

(7) The appropriate financial instrument shall be chosen. Several categories can be selected if several financial instruments are relevant for the respective row. 'Information not available' should only be selected if there is absolutely no information available for the respective row.

Table 6: Complementary information on domestic use of revenues by type of spending (1)

Amount of revenues used for the categories of spending	Total amount disbursed in the year 2020		Total amount committed in the year 2020		Corresponding categories in Table 2 (8)		Comments
	1 000 domestic currency, if applicable	in 1 000 Euros	1 000 domestic currency, if applicable	in 1 000 Euros	Category in Table 2	Share of amount from the selected category in Table 2	
Direct support to mitigation in sectors covered by the EU ETS	0	0	0	0		0	Information not available
Indirect support to mitigation in sectors covered by the EU ETS, e.g. innovation	0	0	0	0		0	Information not available
Direct support to mitigation of domestic/ EU emissions in sectors not covered by the EU ETS	0	0	0	0		0	Information not available
Indirect support to mitigation of domestic/ EU emissions in sectors not covered by the EU ETS, e.g. innovation	0	0	0	0		0	Information not available
Compensation of carbon cost burden	0	0	0	0		0	Information not available
Non-mitigation spending, e.g. adaptation	0	0	0	0		0	Information not available

Notes:

(1) This Table is used for providing an additional breakdown of information on domestic spending, in accordance with categories commonly used in international comparisons. For types of uses covered by Articles 3d and 10 of Directive 2003/87/EC, amounts can overlap with amounts reported in Table 2.

(2) Spending reported in this category could cover the share of spending relevant for ETS sectors reported under the following categories in Table 2:

- (a) development of renewable energies to meet the commitment of the Union
- (b) development of other technologies contributing to the transition to a safe and sustainable low-carbon economy
- (c) development of technologies that help meet the commitment of the Union to increase energy efficiency
- (d) other reduction of greenhouse gas emissions
- (e) funding of common projects to reduce greenhouse gas emissions from the aviation sector

(3) Spending reported in this category could cover the share of spending relevant for ETS sectors reported under the following categories in Table 2:

- (a) funding of research and development and demonstration projects for reducing emissions and for adaptation
- (b) funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms
- (c) environmentally safe capture and geological storage of CO₂
- (d) financing of research and development in energy efficiency and clean technologies

(4) Spending reported in this category could cover the share of spending relevant for non-ETS sectors reported under the following categories in Table 2:

- (a) development of renewable energies to meet the commitment of the Union
- (b) development of other technologies contributing to the transition to a safe and sustainable low-carbon economy

- (c) development of technologies that help meet the commitment of the Union to increase energy efficiency
 - (d) forestry sequestration in the Union
 - (e) encouragement of a shift to low-emission and public forms of transport
 - (f) measures intended to increase energy efficiency and insulation or to provide financial support in order to address social aspects in lower and middle income house-holds
 - (g) other reduction of greenhouse gas emissions
 - (h) measures to avoid deforestation
- (5) Spending reported in this category could cover the share of spending relevant for non-ETS sectors reported under the following categories in Table 2:
- (a) funding of research and development and demonstration projects for reducing emissions and for adaptation
 - (b) funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms
 - (c) financing of research and development in energy efficiency and clean technologie
- (6) Spending reported in this category falls outside the scope of the purposes specified in Articles 10(3) and 3d(4) of Directive 2003/87/EC
- (7) Spending reported in this category could cover spending reported under the following categories in Table 2:
- (a) coverage of administrative expenses of the management of the EU ETS
 - (b) adaptation to the impacts of climate change
 - (c) promotion of skill formation and reallocation of labour in order to contribute to a just transition to a low carbon economy
 - (d) other domestic uses
- (8) In the two columns below, please, consider the following definitions: 'Category in Table 2': Indicate the category(ies) of table 2 which are included in each category of this table (as listed in cells A12 to A17). 'Share of amount from the selected category in Table 2': Compute the ratio between the sum of the committed and disbursed amount, and the total of Table 2 (sum of column C)
