

# Article 5 of Implementing Regulation (EU) 2020/1208 (use of auctioning revenues) for Cyprus

**Table 1a: Revenues generated from auctioning of allowances in year 2020**

	1 000 Euros	1 000 in domestic currency, if applicable (1)	Comments (e.g. explain gaps, relevant national circumstances, changes since last reporting)
<b>Total amount of revenues generated from auctioning of allowances</b>	<b>78415</b>	<b>78415</b>	<b>no</b>
Of which amount of revenues generated from auctioning of allowances pursuant to Article 10 of Directive 2003/87/EC	76987	76987	no
Of which amount of revenues generated from auctioning of allowances pursuant to Article 3d (1) or (2) of Directive 2003/87/EC	1428	1428	no

Notes:

(1) An average annual exchange rate for the year 2020 or the real exchange rate applied to the amount disbursed

<b>Provide the exchange rate used in this questionnaire (1 Euro = XX domestic currency unit)</b>	<b>1</b>
--	----------

**Table 1b: Use of revenues from auctioning of allowances in year 2020**

	Total amount disbursed in the year 2020		Of which amount disbursed in year 2020 and reported as committed in years before 2020		Total amount committed, but not disbursed, in the year 2020		Equivalent financial value used in the year 2020 (2)		Comments (e.g. explain gaps, relevant national circumstances, changes since last reporting)
	1 000 Euros	1 000 in domestic currency, if applicable (1)	1 000 Euros	1 000 in domestic currency, if applicable (1)	1 000 Euros	1 000 in domestic currency, if applicable (1)	1 000 Euros	1 000 in domestic currency, if applicable (1)	
Total amount of revenues from auctioning of allowances or equivalent financial value used for the purposes specified in paragraph 3 of Article 10, and Article 3d(4) of Directive 2003/87/EC	75274	75274	0	0	0	0			no data gap
Of which amount of revenues from auctioning of allowances used for the purposes specified in Article 10(3) of Directive 2003/87/EC (if data are available for separate reporting)	73846	73846	0	0	0	0			no data gap
Of which amount of revenues from auctioning of allowances used for the purposes specified in Article 3d(4) of Directive 2003/87/EC (if data are available for separate reporting)	1428	1428	0	0	0	0			no data gap

Notes:

(1) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.

(2) By reporting 'equivalent financial value', Member States report values which are representative for their spending in accordance with Articles 3d and 10 of Directive 2003/87/EC, and indicate that all values reported in

**Table 2: Use of revenues from auctioning of allowances for domestic and Union purposes pursuant to Articles 3d and 10 of Directive 2003/87/EC**

Purpose for which revenues were used (e.g. programme, activity, action or project title)	Short description (including reference to online source of more detailed description, if available)	Amount for year 2020		Status (2)	Revenues pursuant to		Type of use (3)	Financial instrument (4)	Implementing Agency (e.g. responsible ministry)	Comments
		1 000 Euros	1 000 Domestic Currency (1)		Article 3d	Article 10				
Sponsorship to the Cyprus Research and Academic Foundation	funding research and development in the field of energy efficiency and clean technologies	6750	6750	Disturbed	No	Yes	development of technologies that help meet the commitment of the Union to increase energy efficiency	- fiscal	Deputy Ministry of Research, Innovation and Digital Policy	no
Auctioneer Expenses	Payment to Auctioneer	761	761	Disturbed	No	Yes	coverage of administrative expenses of the management of the EU ETS	- fiscal	Ministry of Agriculture, Rural Development, Environment	none
Cyprus Initiative for the Coordination of Actions of Eastern Mediterranean and Middle Eastern Countries on Climate Change	Conferences, Seminars and Other Events in Cyprus/Meeting of Ministers	3	3	Disturbed	No	Yes	adaptation to the impacts of climate change	- fiscal	Ministry of Agriculture, Environment	none
Contribution to International Organisations/Associations/Institutions etc	Eurocontrol funding for the development and operation of the ETS support facility, Convention on Climate Change, Kyoto Protocol	500	500	Disturbed	Yes	No	adaptation to the impacts of climate change; coverage of administrative expenses of the management of the EU ETS	- fiscal	Ministry of Agriculture, Environment	none

sequestration of CO2 from forests in the Union	Forests and Climate Change	19	19	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Ministry of Agriculture, Rural Development, Environment	none
sequestration of CO2 from forests in the Union	Forest Protection	11	11	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	ministry of agriculture, rural development and environment	none
sequestration of CO2 from forests in the Union	Fighting Fires and Dealing with Disasters	28	28	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department	none
Forest sequestration	Creation of National Forest Parks	195	195	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department	none
Forestry sequestration in the Union	Protective measures for Forests	42	42	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department	none
sequestration of forests in the Union	Fire Lanes, Vehicular Access Roads and Atrapas	78	78	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry department cyprus	none
forestry sequestration in the Union	Planting Trees Along Roads	420	420	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department Cyprus	na
forestry sequestration in the Union	Reforestation	12	12	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department Cyprus	na
forestry sequestration in the Union	Creation of National Forest Parks	195	195	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department Cyprus	n/a
forestry sequestration in the Union	Forestry	148	148	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department Cyprus	n/a
forestry sequestration in the Union	Forest Protection	48	48	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department Cyprus	none
forestry sequestration in the Union	Fireproof lanes, vehicle access roads and ramps	53	53	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department Cyprus	none

forestry sequestration in the Union	Planting Trees Along Roads	112	112	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Reforestation	6	6	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Reset Environment	323	323	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Creation of National Forest Parks	73	73	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Forest preservation	69	69	Disturbed	Yes	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Reforestation	6	6	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Planting Trees Along Roads	64	64	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	no
forestry sequestration in the Union	Forest Protection	108	108	Disturbed	Yes	No	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Fireproof lanes, vehicle access roads and ramps	70	70	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Reforestation	2	2	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Creation of National Forest Parks	30	30	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Forestry	30	30	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none
forestry sequestration in the Union	Fireproof lanes, vehicle access roads and ramps	5	5	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Cyprus	Department	none

forestry sequestration in the Union	Major Improvements and Reconstruction of Existing Roads and Bridges	373	373	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department	none
forestry sequestration in the Union	Creation of National Forest Parks	150	150	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Forestry Department	none
forestry sequestration in the Union	Other Construction Projects / Environmental Restoration / Environmental Restoration of the Old Asbestos Mine	310	310	Disturbed	Yes	No	forestry sequestration in the Union	- fiscal	Forestry Department	none
Reduction of greenhouse gas emissions/participation in initiatives,	Construction Projects Dept. Dept. Water/ Waste Management, Green spaces	40	40	Disturbed	No	Yes	forestry sequestration in the Union	- fiscal	Water Development Department	none
Reduction of greenhouse gas emissions/participation in initiatives,	Other Water Projects / Installation of a connected network of Photovoltaic Energy Systems at 8 Water Treatment and Pumping Stations	159	159	Disturbed	No	Yes	development of renewable energies to meet the commitment of the Union	- fiscal	Water Development Department	none
Reduction of greenhouse gas emissions/participation in initiatives	Expert Rights to Prepare Studies/Biodiversity Studies-Waste Management-Climate Action-Pollution	169	169	Disturbed	No	Yes	funding of research and development and demonstration projects for reducing emissions and for adaptation	- fiscal	Department of Environment	none
Reduction of greenhouse gas emissions/participation in initiatives	Purchase of Services/Environmental Studies	77	77	Disturbed	No	Yes	funding of research and development and demonstration projects for reducing emissions and for adaptation	- fiscal	Department of Environment	none

Reduction of greenhouse gas emissions/participation in initiatives	Waste Management and Environmental Protection	544	544	Disturbed	Yes	Yes	funding of research and development and demonstration projects for reducing emissions and for adaptation	- fiscal	Department of Environment	of none
measures aimed at improving energy efficiency;	"Strengthening the competitiveness of SMEs in the manufacturing sector and other targeted economic activities in areas within the British Bases" Upgrade to Housing located in areas within the British Bases"	85	85	Disturbed	No	Yes	measures intended to increase energy efficiency and insulation or to provide financial support in order to address social aspects in lower and middle income house-holds	- fiscal	Industry and Technology Service of Ministry of Energy, Commerce and Industry	none
encourage a shift to low-emission and public transport	Public Passenger Transport	63000	63000	Disturbed	No	Yes	encouragement of a shift to low-emission and public forms of transport	- fiscal	Administration - Directorate of Public Passenger Transport	none
measures aimed at improving energy efficiency;	Building Improvements Government Buildings / energy upgrade	44	44	Disturbed	No	Yes	adaptation to the impacts of climate change	- fiscal	Department of Public Works	none
encourage a shift to low-emission and public transport	Construction of Pedestrian Paths / Cycle Paths	28	28	Disturbed	No	Yes	encouragement of a shift to low-emission and public forms of transport	- fiscal	Department of Public Works	none
encourage a shift to low-emission and public transport	Purchase of Services / telematics systems, stations, shelters, transport specialists	5	5	Disturbed	No	Yes	encouragement of a shift to low-emission and public forms of transport	- fiscal	Department of Road Transport	none
encourage a shift to low-emission and public transport	Expert Rights for preparation of studies/Studies for electric car charging points, energy upgrade, etc.	36	36	Disturbed	No	Yes	encouragement of a shift to low-emission and public forms of transport	- fiscal	Department of Electromechanical Services	of none

Reducing Greenhouse Gas Emissions and Adapting Agriculture to Climate Change by Funding Research	Research Programs of ARI in the Branches: - Plant Improvement - Animal production - Plant protection - Of agricultural development - Agricultural biotechnology - Land Improvements - Vegetable farming - Arboriculture	123	123	Disturbed	No	Yes	adaptation to the impacts of climate change; financing of research and development in energy efficiency and clean technologies	- fiscal		Agriculture Research Institute Cyprus	none
<b>Total Amount of Actions - Table 2</b>		<b>75304</b>	<b>75304</b>								

Notes:

(1) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.

(2) Select one of the two choices. If part of the reported amount is committed and another part disbursed related to a specific programme/project, two separate rows should be used. If Member States are not able to distinguish between committed and disbursed amounts, the most appropriate category should be selected for the reported amounts.

<b>Please provide the definitions used for 'commitment' and 'disbursement' (Consistent definitions should be used across the Tables)*:</b>	
- 'commitment' :	Ministry of Agriculture, Rural Development & Environment
- 'disbursement' :	None

(3) Categories of uses mentioned in Article 10(3) of Directive 2003/87/EC as follows:

- funding of research and development and demonstration projects for reducing emissions and for adaptation;
- funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms;
- development of renewable energies to meet the commitment of the Union;
- development of other technologies contributing to the transition to a safe and sustainable low-carbon economy;
- development of technologies that help meet the commitment of the Union to increase energy efficiency;
- forestry sequestration in the Union;
- environmentally safe capture and geological storage of CO<sub>2</sub>;
- encouragement of a shift to low-emission and public forms of transport;
- financing of research and development in energy efficiency and clean technologies;
- measures intended to increase energy efficiency and insulation or to provide financial support in order to address social aspects in lower and middle income house-holds;
- coverage of administrative expenses of the management of the EU ETS;
- promotion of skill formation and reallocation of labour in order to contribute to a just transition to a low carbon economy;
- other reduction of greenhouse gas emissions;
- adaptation to the impacts of climate change;
- other domestic uses.

Categories mentioned in Article 3d(4) of Directive 2003/87/EC, but not specifically mentioned in Article 10(3) as follows:

- funding of common projects to reduce greenhouse gas emissions from the aviation sector;
- measures to avoid deforestation.

Member States shall avoid double counting of amounts in this Table. If a specific use fits to several types of uses, several types can be selected; however, the amount indicated is not to be multiplied but additional rows for types of uses are to be linked with one entry field for that amount.

(4) Several categories can be selected if several financial instruments are relevant for the reported programme or project.

**Table 3: Use of revenues from auctioning of allowances for international purposes**

Use of revenues from auctioning of allowances or the equivalent in financial value for international purposes (3)	Amount committed in the year 2020 (2)		Amount disbursed in the year 2020 (2)		Comments e.g. explain gaps, qualitative information on specific uses if quantitative information is not available and any other accompanying information (3)
	1 000 Euros	1 000 in domestic currency, if applicable (1)	1 000 Euros	1 000 in domestic currency, if applicable (1)	
	0	0	500	500	none
Total amount used as specified under Articles 10(3) and Article 3d(4) of Directive 2003/87/EC for supporting developing countries	0	0	3	3	none

Notes:

(1) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.

(2) The definition used and provided in table 2 must be used. If part of the reported amount is committed and another part disbursed related to a specific programme/project, two separate rows should be used. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts.

(3) Member States shall avoid double counting of amounts in this Table. If a specific use fits into several rows, the most appropriate one is to be chosen and the respective amount shall be only entered once. Accompanying textual information could further explain such allocation decisions, if necessary.

**Table 4: Use of revenues from auctioning of allowances to support developing countries through multilateral channels pursuant to Articles 3d and 10 of Directive 2003/87/EC (1) (2)**

	Amount for the year 2020		Status (4)	Type of support (5)	Financial instrument (6)	Sector (7)	Comments (e.g. explain gaps, qualitative information on specific uses if quantitative information is not available and any other accompanying information)
	1 000 Euros	1 000 Domestic Currency (3)					
<b>Total amount for supporting developing countries through multilateral channels</b>	<b>0</b>						<b>no</b>
<b>of which used, if applicable, via multilateral funds</b>							<b>no</b>
Global Energy Efficiency and Renewable Energy Fund (GEEREF) (Article 10(3)(a) of Directive 2003/87/EC)	0						no
Adaptation Fund under the UNFCCC (Article 10, paragraph 3(a) of Directive 2003/87/EC)	0						no
Special Climate Change Fund (SCCF) under the UNFCCC	0						no
Green Climate Fund under the UNFCCC	0						no
Least Developed Countries Fund							no
UNFCCC Trust Fund for Supplementary Activities	0						no
For multilateral support to REDD+ activities							no
Other multilateral climate-related funds (please specify)	0						no
<b>of which used, if applicable, via multilateral financial institutions</b>	<b>0</b>						<b>no</b>

Global Environmental Facility	0						no
World Bank	0						no
International Finance Corporation	0						no
African Development Bank	0						no
European Bank for Reconstruction and Development	0						no
Inter-American Development Bank	0						no
Other multilateral financial institutions or support programmes, please specify	0						no

Notes:

- (1) Member States shall avoid double counting of amounts in this Table. If a specific use fits into several rows, the most appropriate one is to be chosen and the respective amount shall be only entered once. Accompanying textual information could further explain such allocation decisions, if necessary
- (2) The notation key 'information not available' may be used if there is absolutely no information available for the respective cells.
- (3) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.
- (4) Information on the status shall be provided where available at disaggregate level. The definition used and provided in table 2 must be used. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts.
- (5) To be reported if such information is available for multilateral fund or banks. 'Information not available' should only be selected if there is absolutely no information available for the respective row.
- (6) The appropriate financial instrument shall be chosen. Several categories should be selected if several financial instruments are relevant for the respective row. Mostly grants are provided to multilateral institutions and other categories may not frequently be applicable. However more categories are used to achieve consistency with reporting requirements for biennial reports under the UNFCCC. 'Information not available' should only be selected if there is absolutely no information available for the respective row.
- (7) Several applicable sectors can be selected. Member States may report sectoral distribution if such information is available. 'Information not available' should only be selected if there is absolutely no information available for the respective row.
- (8) Only financial support provided which is climate-specific as e.g. indicated by CDC DAC indicators should be entered in this Table.

**Table 5: Use of revenues from auctioning of allowances pursuant to Articles 3d and 10 of Directive 2003/87/EC for bilateral or regional support to developing countries (1) (2)**

Programme, activity, action or project title	Recipient country/region	Amount for the year 2020		Status (4)	Type of support (5)	Sector (6)	Financial instrument (7)	Implementing Agency	Comments
		1 000 Euros	1 000 Domestic currency (3)						
no revenues used	none	0	0	Disbursed	Other	information not available	other	none	No revenues Used
<b>No revenues used</b>		<b>0</b>	<b>0</b>						

Notes:

(1) Member States shall avoid double counting of amounts in this Table. If a specific use would fit into several rows, the most appropriate one shall be chosen and the respective amount shall be only entered once. Accompanying textual information could further explain such allocation decisions, if necessary

(2) The notation key 'information not available' may be used if there is absolutely no information available for the respective cells.

(3) An average annual exchange rate for the year X-1 or the real exchange rate applied to the amount disbursed shall be used for the currency conversion.

(4) Information on the status shall be provided at least in Table 3, and should be provided in this Table, where available at disaggregate level. If Member States are not able to distinguish between committed and disbursed amounts, the appropriate category should be selected for the reported amounts.

(5) Only financial support provided which is climate-specific as e.g. indicated by OECD DAC indicators should be entered in this Table.

(6) Several applicable sectors can be selected. Member States may report sectoral distribution if such information is available. 'Information not available' should only be selected if there is absolutely no information available for the respective row.

(7) The appropriate financial instrument shall be chosen. Several categories can be selected if several financial instruments are relevant for the respective row. 'Information not available' should only be selected if there is absolutely no information available for the respective row.

**Table 6: Complementary information on domestic use of revenues by type of spending (1)**

Amount of revenues used for the categories of spending	Total amount disbursed in the year 2020		Total amount committed in the year 2020		Corresponding categories in Table 2 (8)		Comments
	1 000 domestic currency, if applicable	in 1 000 Euros	1 000 domestic currency, if applicable	in 1 000 Euros	Category in Table 2	Share of amount from the selected category in Table 2	
Direct support to mitigation in sectors covered by the EU ETS	0	0	0				none
Indirect support to mitigation in sectors covered by the EU ETS, e.g. innovation							none
Direct support to mitigation of domestic/ EU emissions in sectors not covered by the EU ETS	0		0	0			none
Indirect support to mitigation of domestic/ EU emissions in sectors not covered by the EU ETS, e.g. innovation		0					none
Compensation of carbon cost burden	0		0	0			none
Non-mitigation spending, e.g. adaptation	0	0	0				none

Notes:

(1) This Table is used for providing an additional breakdown of information on domestic spending, in accordance with categories commonly used in international comparisons. For types of uses covered by Articles 3d and 10 of Directive 2003/87/EC, amounts can overlap with amounts reported in Table 2.

(2) Spending reported in this category could cover the share of spending relevant for ETS sectors reported under the following categories in Table 2:

- (a) development of renewable energies to meet the commitment of the Union
- (b) development of other technologies contributing to the transition to a safe and sustainable low-carbon economy
- (c) development of technologies that help meet the commitment of the Union to increase energy efficiency
- (d) other reduction of greenhouse gas emissions
- (e) funding of common projects to reduce greenhouse gas emissions from the aviation sector

(3) Spending reported in this category could cover the share of spending relevant for ETS sectors reported under the following categories in Table 2:

- (a) funding of research and development and demonstration projects for reducing emissions and for adaptation
- (b) funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms
- (c) environmentally safe capture and geological storage of CO<sub>2</sub>
- (d) financing of research and development in energy efficiency and clean technologies

(4) Spending reported in this category could cover the share of spending relevant for non-ETS sectors reported under the following categories in Table 2:

- (a) development of renewable energies to meet the commitment of the Union
- (b) development of other technologies contributing to the transition to a safe and sustainable low-carbon economy

- (c) development of technologies that help meet the commitment of the Union to increase energy efficiency
  - (d) forestry sequestration in the Union
  - (e) encouragement of a shift to low-emission and public forms of transport
  - (f) measures intended to increase energy efficiency and insulation or to provide financial support in order to address social aspects in lower and middle income house-holds
  - (g) other reduction of greenhouse gas emissions
  - (h) measures to avoid deforestation
- (5) Spending reported in this category could cover the share of spending relevant for non-ETS sectors reported under the following categories in Table 2:
- (a) funding of research and development and demonstration projects for reducing emissions and for adaptation
  - (b) funding of initiatives within the framework of the European Strategic Energy Technology Plan and the European Technology Platforms
  - (c) financing of research and development in energy efficiency and clean technologie
- (6) Spending reported in this category falls outside the scope of the purposes specified in Articles 10(3) and 3d(4) of Directive 2003/87/EC
- (7) Spending reported in this category could cover spending reported under the following categories in Table 2:
- (a) coverage of administrative expenses of the management of the EU ETS
  - (b) adaptation to the impacts of climate change
  - (c) promotion of skill formation and reallocation of labour in order to contribute to a just transition to a low carbon economy
  - (d) other domestic uses
- (8) In the two columns below, please, consider the following definitions: 'Category in Table 2': Indicate the category(ies) of table 2 which are included in each category of this table (as listed in cells A12 to A17). 'Share of amount from the selected category in Table 2': Compute the ratio between the sum of the committed and disbursed amount, and the total of Table 2 (sum of column C)
