

# Weather on the Web

Access forecast and climate data on the web and through smartphone applications.

Cyprus Department of  
Meteorology participation in the  
WMO World Weather  
Information Service (WWIS)

The Cyprus Department of Meteorology would like to inform the general public of its participation in the WMO World Weather Information Service. WWIS provides **official** weather observations, forecasts and climatological information for selected cities around the world, including Cyprus. All meteorological information is supplied by National Meteorological and Hydrological Services worldwide. Access to WWIS data is provided by the website <http://worldweather.wmo.int>. Smartphone users can access WWIS weather and climate data using the “My World Weather” app which is freely available from the Google Play Store for Android devices and the Apple store for iOS devices. The application can also supply the smartphone user with weather information depending on the user’s geographical location.
