Memorandum of Cooperation between the Department of Meteorology and the Joint Rescue Coordination Centre

On 13 November 2019, a Memorandum of Cooperation was signed between the Department of Meteorology (DM) and the Joint Rescue Coordination Centre (JRCC). In accordance to this memorandum the DM acts as the certified provider of meteorological information relevant to aeronautical operations, while the JRCC acts as the receiver of this information in order to accomplish its mission. With the signature of this memorandum all aspects of the cooperation between these two government organizations, which has existed since the time of the founding of the JRCC, are thereby officially regulated.

The Memorandum has been signed by the Director of the Department of Meteorology Dr. Cleanthes Nicolaides and the Director of the JRCC Commander Andreas Charalambides.
